

Harmony, Counterpoint

The image shows a musical score for a piece in C Major key. It consists of two staves, treble and bass clef. The score is divided into three measures with time signatures 3:2, 5:4, and 3:4. The first measure has a VI Am7 chord, the second has a V G7 chord, and the third has a III Em7 chord. The notation includes various rhythmic values, accidentals, and phrasing slurs. Below the staves, the text 'C Major key' is followed by a dotted line.

The basis of counterpoint (point against point) is melody. Harmony is evident in counterpoint which, I suppose, is what is causing the confusion. In music, counterpoint is the relationship between voices that are harmonically interdependent. Broadly speaking, due to the development of harmony, from the Baroque period on, most contrapuntal compositions were written in the style of. Question: Can counterpoint and harmony exist in the same composition, or if counterpoint is the focus then will harmony will be subordinate, or vice versa? Tonal counterpoint though is a tougher case, because the harmony is clearly very important. Still, the melody is what ties it all together, not the harmony. I don't know if I have my head wrapped around this concept. Counterpoint seems to have the focus on melody and implied harmonies are. Celebrate Theory is a new series that supports the study of music theory at every stage of a student's musical development. Encompassing rudiments, harmony.
